WHY EDUCATION IS SO IMPORTANT

From The Huejillo Leaf.

We are sometimes asked the question, "Why do this; what good will there be in it?" And then, when we are "under the weather," we find ourselves asking the same questions, when we know that things with work attached to them are never done, unless they are worth while. In the "olden times" an education seemed unnecessary and a waste of good time, but today, with the changes that time has Doan's Kidney Pills-the same that brought, a man or a woman without Mr. Getter had. Foster-Milburn Co., an education is practically unneeded. Mfgrs., Buffalo, N. Y when work and questions of importance arise. With careful study, we find that education is, in one way or another, the foundation of everything that amounts to something in this world. A man without ambition can scarcely be called a man, and if he has ambition enough to want to attain it, his first thought will be education. A doctor, a teacher, lawyer, or any professional man or woman must be educated before any good can be given to the world by them. Even a housewife will be more successful in her daily routine if she knows what is best. In every occupation, whether great or small, we can easily see why, to be useful, an education is necessary.

When the kidneys are weak, Nature tells you about it. The urine is nature's index. Infrequent or too frequent passage, Other disorders suggest kidney ills. Doan's Kidney Pills are for disor-

On stooping over it was an effort for me to straighten up again. Nights I had to get up frequently to pass the kidney secretions, which were scanty, highly colored and scalding. She continues: "I had a pain in my chest after eating— tight, uncomfortable feeling-and this was very disagreeable and brought on headache. THIS offer means just what it says. Come in, -or mail the coupon. Why wait any longer? Don't you want your family, too, to enjoy the finer beauties of music which only the New Edison brings? Dr. W. V. Bingham recently made a scientific comparison between the New Edison and three other phonographs. He tested each phonograph on 9 different counts,including all classes of vocal and instrumental music. The New Edison triumphed in all 9 tests.

Add this marvelous result to the fact that the New Edison is the only phonograph which sustains the test of direct comparison with living artists. Then you will see why only the New Edison brings a true version of the living artist's performance. What other phonographs bring, is a perversion of it.

Fill in your own first payment. We'll accept it (if it is sufficient to indicate good faith). Pay no more till next year. Then budget the balance any way you wish. In Memoriam. In memory of our dear, little cousin, HOWARD LOUIS MEHR.

Those little lips, so sweet to kiss, Are closed forever now. Those sparkling eyes that shone so bright.

Beneath the pearly brow. That little heart, that beat so light, Free from all care and gloom. Are hidden now from those he loved Beneath the silent tomb.

Tis hard to break the tender cord When love has bound the heart; Tis hard, so hard to speak the words: We must forever part. Dearest Howard, you left us too soon For the peaceful grave's embrace;

But thy memory will be cherished

Till we see thy heavenly face. B. yand the doubts and hopes and fears, Beyond the cares and j y and tears, Beyond the sn ung and the weeping.

Beyond the waking and the sleeping, Our loved one rests in slumber deep, In silent and eternal sleep. We had a little treasure once, He was our joy and pride;

We loved him, an! perhaps too well,

For soon he slept and died. All is dark within our dwelling. Lonely are our hearts today. For the one we loved so dearly Has forever passed away His Cousins.
